

GOSPEL THROUGH COLOMBIA

Equipping church leaders in Colombia to proclaim the gospel throughout Latin America

In the beginning, God created the heavens and the earth. Genesis 1:1

June 3, 2010

Dear Brethren in Christ,

It has become very difficult for GTC to meet the budget this past month. GTC is in an emergency situation right now, and the ministry needs your special support this month in order to fulfill all commitments and responsibilities. If you are able, will you please assist—even with a one-time contribution this month?

The mission continues to grow, as the church in Latin America awakens to the new reformation. Under the light of healthy biblical instruction and sound doctrine, church after church and pastor after pastor are realizing the heresies that are plaguing the church for lack of virtue and knowledge.

Pastor Leonel Ortiz of Villavicencio has concentrated his efforts, not only in providing instruction to pastors, but pours his life into the training of small groups of pastors, providing theological biblical instruction and spending time toward their development of character and commitment. With such profound spiritual support, these pastors have demonstrated faithfulness in the ministry, the evidence of their personal sanctification and accountability to each other as they lead truly reformed congregations.

In August, Pastor Ortiz will host a convention of pastors from many cities. This convention is intended to strengthen relationships, through the sharing of experiences, devotions, and conferences presented by missionaries from the U.S., as well as national pastors and professors.

We are glad to confirm the conference by Dr. Thomas Woodward from Trinity College, to take place July 5-15. Dr. Woodward will be teaching in 5 cities in South America. His conferences will demonstrate the magnificent creation by an almighty, omniscient and perfect God, in contrast to the theories of evolution, spontaneous explosion of nothing into something, and other assumptions promoted by individuals and organizations whose sole intention is to eliminate the God of the Bible from the study of science and creation. Dr. Woodward will also participate in debates with university professors in order to expose college students to the truth of the Bible. Dr. Woodward will have available DVD's in English and Spanish. These DVD's clearly present how complicated is the cell, the DNA and its systems of communications within the cell, in contrast to Darwinian viewpoints. You may request a copy of this DVD through GTC.

If you have not recently sent a gift to GTC, and truly see the mercy of God in South America through the ministry of GTC, please contribute this month, if you are able. Thank you for your continued prayers.

We at GTC are always grateful to our contributors. Every gift goes very far, bringing the joy of Jesus, the peace of God and the love for His word to so many in Latin America.

Noé S. Acosta, M. Div., Ed.D.,
GTC Executive Director

To equip the saints for the work of ministry, for building up the body of Christ. Eph. 4:12 ESV
